27 September 1961

MEMORANDUM FOR: Assistant Chief of Staff for Intelligence,
Department of the Army
Assistant Chief of Staff for Intelligence,
Department of the Air Force
Director of Naval Intelligence, Department
of the Navy
Deputy Director for Intelligence, CIA
Chairman, COMOR
Chairman, GMAIC

SUBJECT : Meeting to Discuss Name Changes for Missile Sites

1. The problem of identifying ICBM and MRBM sites by name location is continuing to create unnecessary difficulties to NPIC during the preparatory and actual OAK reporting periods.

2. Several attempts have been made to stabilize the naming procedures used but immediately following each OAK reporting period numerous changes are reflected by various components of the Intelligence Community. For example, some MRBM facilities have as many as 3 and 4 names which must be completely cross referenced so that the recipient is cognizant of these changes.

3. In order to alleviate this situation and to arrive at a set of acceptable criteria for the future, request a representative from your office who is qualified to speak authoritatively on the problem attend a meeting in Room 506 at NPIC at 1430 on Friday, 29 September 1961. Each representative should be accompanied by no more than three assistants.
